## Day 1

**Communication Day!** Learn how to communicate with Sellers so that they say Yes to having their home Staged!

Day 1 is in a classroom environment where you will learn the details of this proven program of Staging practices. There are many before and after slides to teach creative problem solving skills that will help you make magic out of almost anything in the seller's home! The course will teach you how to educate the seller to do whatever is required to Stage® their Home.

## Day 2

**Transforming an actual Home with ASP Staging!**

The course shows you that Staging Magic is not about just "buying things" but rather how to work with what the homeowner already has and how to use your creativity to serve your client in the best way possible. Then, in the afternoon your entire class will go to a home on the market and Stage it for a hands-on Staging Experience.

## Day 3

**Learn how to build a successful Staging Business.**

Day three is in a classroom environment where you will learn the details of building a successful Staging business. Learn how to create bids, perform consultations, and the difference between the two. Gain expert knowledge on how to market yourself and your business. Learn about strategic planning that will propel your business to number one!
